

EP-1 . Team Identity: Name, Look & Motto	EP-2 . Read the Game, Build the Wall Poster	EP-3 .. Robot Requirements List	EP-4 .. Design Sketches & Pick a Concept
		→ EP-2	→ EP-3
EP-5 . Set Up the Engineering Notebook	EP-6 . Tape Out the Practice Field	EP-7 . Shop Safety & Tool Check-Off	CD-1 . Onshape Setup & Your First Part
CD-2 .. Measure & Model a Real Robot Part	CD-3 ... Design a Pollen Intake in CAD	CD-4 ... Design a Pollen Outtake in CAD	CD-5 ... Build the Robot in CAD: Assembly & Fit Check
→ CD-1	→ CD-2, EP-4	→ CD-2, EP-2	→ CD-2
CD-6 .. From CAD to Printed Part	CD-7 ... Design a Printed Part That Solves a Real Problem	CD-8 ... Design the Odometry Mounting Adapter	PR-1 . Get Connected: Control Hub & Driver Station
→ CD-2	→ CD-6	→ CD-2, BA-3	BOARD / ROBOT
PR-2 . Build the Robot Configuration File	PR-3 . First TeleOp: Make It Drive (Mecanum)	PR-4 .. Telemetry: See What the Robot Is Thinking	PR-5 .. Driver Tuning: Slow Mode & Smooth Control
BOARD / ROBOT → PR-1	ROBOT → PR-2	BOARD / ROBOT → PR-3	ROBOT + FIELD → PR-3, EP-6
PR-6 .. First Autonomous: Time-Based Movement	PR-7 ... Encoder Autonomous: Drive an Exact Distance	PR-8 .. Intake Control: Map a Mechanism to a Button	PR-9 . Practice Without the Robot: FTC SIM
ROBOT + FIELD → PR-3, EP-6	ROBOT + FIELD → PR-6, PR-4	ROBOT → PR-2, BA-5	
PR-10 . Touch Sensor: The First Decision	PR-11 .. Color Sensor: Teach It to See Pollen	PR-12 .. Potentiometer & Servo: Analog In, Position Out	PR-13 ... Bench to Robot: Move Your Code Over
BOARD → PR-2	BOARD → PR-4	BOARD → PR-4	ROBOT → PR-3, PR-10
PR-14 ... Field-Centric Drive with the IMU	PR-15 .. Read the Pinpoint: Configure & Prove It	PR-16 ... Pedro Pathing: Install & Tune the Localizer	PR-17 ... Pedro Pathing: Tune the Follower
ROBOT + FIELD → PR-3, PR-4	ROBOT → BA-10, PR-4	ROBOT + FIELD → PR-15, PR-3	ROBOT + FIELD → PR-16, EP-6
BA-1 . Inventory the Kit & Set Up the Shop	BA-2 . Mecanum Chassis: Build the Frame	BA-3 .. Mecanum Drive: Gearboxes, Motors & Wheels	BA-4 .. Electronics: Mount & Wire the Control Hub
	ROBOT → BA-1, EP-7	ROBOT → BA-2	ROBOT → BA-3, EP-7

BA-5 ... Design & Build an Intake ROBOT → BA-3, EP-4	BA-6 . Battery Management Station ROBOT → BA-4, CD-8	BA-7 ... Scoring Mechanism Prototype (cardboard first) ROBOT → BA-5, EP-4	BA-8 . Robot Cart & Pit Kit ROBOT → EP-1, MG-1
BA-9 . Assemble a Programming Board BOARD → EP-7	BA-10 .. Install the Pinpoint Odometry Pods ROBOT → EP-1	MG-1 . Give-Away Plan & Budget → EP-1, MG-1	MG-2 .. Design the Give-Away Art → EP-1, MG-1
MG-3 . Produce the Give-Aways (assembly line) → MG-2	MG-4 .. Team Card / Business Card → EP-1	MG-5 ... 3D-Printed Give-Away → MG-1	MG-6 .. Design the Award Patch Set → EP-1
TS-1 . Shirt Design Concepts → EP-1	TS-2 .. Vote & Make the Art Print-Ready → TS-1	TS-3 . Sizing Survey & Order Sheet → TS-2, TS-3	TS-4 .. Get Quotes & Recommend a Printer → TS-2, TS-3
MF-1 . Build the Sponsor Prospect List → EP-1, MF-1	MF-2 .. Sponsorship One-Pager → EP-1, MF-1	MF-3 .. Write the Outreach Emails & Letters → MF-2	MF-4 . Social Media Plan & First Posts → EP-1
MF-5 .. Team Page Content for the Herobotix Website → EP-1	MF-6 .. Plan a Demo / Outreach Event ROBOT → PR-3	MF-7 ... Grants & Team Funding Applications → MF-2	

ON THE MENU TODAY

Cards whose prerequisites are met and whose hardware is free. Coach posts these at orientation.

CLAIMED

A crew has this one. Write their names next to the chip in dry-erase.

DONE

Every “Done when” box is true. Stamp the sheet, log it, file it in the notebook.

IN PROGRESS

Ran out of time. The sheet lives here with a note on the back saying where it stopped, and the next crew picks it up.

DONE & STAMPED

Completed sheets waiting to be taped into the engineering notebook.

Card Completion Log

Team 22257 · 2026–2027 · one line per card finished. Keep this in the front of the DONE folder.

DATE	CARD	WHO WORKED ON IT	HANDED OFF TO	STAMPED	NOTES

A stamped card is a notebook entry. It already carries the checklist, what the crew did, their names and the date. Log it here, then tape it into the engineering notebook — that is most of EP-5 done for free. Only stamp when every “Done when” box is genuinely true; a card that ran out of time goes in IN PROGRESS instead.
