

Power Tool Check-Off

Team 22257 · Herobotix · 2026–2027 · post this where the tools are

A signature means: this person has been shown the tool, has used it under direct supervision, and may use it again **with a mentor present**. It does **not** mean they may use it alone. Only a mentor signs a box — never a student.

ALWAYS

An adult mentor present and watching. No exceptions, no matter who is signed off.

EYES

Safety glasses on everyone in the area, not just whoever is running the tool.

LOOSE THINGS

Hair tied back, sleeves up, no gloves, no dangling jewelry, cords or drawstrings.

BEFORE THE CUT

Know where the switch and the stop are. Material clamped or in the fixture — hands never near the blade.

STOP

If anything feels wrong, stop and ask. Nobody is ever in trouble for stopping.
